---	--

Comments

Status of Rodents or Rodent Tissues

- A. These rodents or rodent tissues are released from quarantine. They may be used at NIH without further restriction. However, if unexpected illness or death occurs in these animals or animals with which they are associated, it is recommended that you contact your IC veterinarian and the DVR Rodent Import Officer.
- B. These rodents or rodent tissues were found to be infected with the agents cited above. The following restrictions apply to their holding at NIH.
- C. Due to evidence of infection noted above, these rodents or rodent tissues cannot be held or used at NIH in accordance with NIH Manual 3043-1.

Signature of DVR or IC Rodent Import Officer or designee	Date Signed
